

Now that you have the first 123 test under your belt, you have experienced the type of questions that you will be asked to answer. If you had difficulty with the questions on Test 1, practice as many questions as you can at the end of your chapter, on the CD that came with your book, in your study guide, online as scattered throughout each chapter, and in the Nursing Resource Lab under NCLEX Review (Foundations/Fundamentals).

Looking at the Study Guide for Test 2 (located on the I-drive under Hasbargen), there are 17 questions on body mechanics, positioning, transferring, & ambulation!! So... let's proceed to the challenge
